Conducted training programs in various National and Multi-National companies in Pakistan. Khalid holds M.S degree in Industrial Chemistry, possess strong business acumen and Multi-Functional Industrial experience in the areas of Manufacturing, HSE, QA & Supply Chain.

PROGRAM OVERVIEW

Total Productive Maintenance (TPM) is a holistic approach to equipment maintenance that emphasizes on achieving Manufacturing Excellence, without breakdowns, defects and assuring high safety standards at plants. It also enhances proactive and preventative maintenance to maximize the overall equipment efficiency (OEE). It supports lean manufacturing systems. It supports the empowerment operators to help maintain their equipment. Implementation of a TPM program creates a shared responsibility for equipment that encourages greater involvement by plant floor workers. In the right environment this can be very effective in improving productivity (increasing up time, reducing cycle times, and eliminating defects) and equipment reliability.

KEY LEARNING & TAKE AWAYS

- 1-Lean manufacturing systems
- 2-Enhances proactive and preventative maintenance to maximize the overall equipment efficiency (OEE)
- 3-Empowerment of operators to help in maintaining their equipment
- 4-No breakdowns
- 5-Zero defects
- 6-Assures high safety standards at plants
- 7-Elimination of Wastes
- 8-Implementation of Continuous Improvement programs (KAIZEN)

WHO SHOULD ATTEND?

- Production / QA Managers
- Operations Managers
- Line Managers
- Team Leads
- Deputy Managers
- Maintenance Engineers

Venue: Royal Rodale, DHA, Karachi
